

## **Trainee Signalling Installer**

**Location:** Bircotes, Doncaster

**Position Type:** Permanent

**Salary:** Dependent on qualifications and experience

At TICS Rail Signalling, part of the Trackwork Group, we believe it takes more than know-how and a broad capability to build a successful business and satisfy our customers. Energy, commitment, integrity, professionalism, vision and innovation are all vital factors in our position as a major player on the railway scene. We invest heavily in our people, providing a full career development plan for each member of the team to ensure ongoing levels of competence. Our structure and progression system recognises talent and rewards it. We aim to attract the right people and retain those that we employ.

We are currently looking to recruit a trainee to join our Signalling Installation Team. If you have experience trackside and are looking to move into installation then we would love to hear from you.

### **The Role**

Reporting to the Installation Team Leader, you will be trained to undertake installation work, ensuring work adheres to safety requirements and also complies with industry standards.

### **Requirements**

#### **Essential**

- Must hold PTS AC & DCCR
- Excellent communications skills
- Full UK driving licence
- Reliable and flexible

Please do not apply if you do not hold all of the essential requirements.

Due to HSE Fatigue Register Index requirements you must live (or be willing to relocate if appointed) within at most a 50 minute commute of Bircotes.

**Please send a CV to [jobs@trackwork.co.uk](mailto:jobs@trackwork.co.uk)**
